FIRE INSURANCE NOTICES, &c. SOUTHERN PROTECTION INSURANCE

COMPANY ALEXANDRIA, VIRGINIA CAPITAL OVER 350,000 DOLLARS.

AND CONSTANTLY INCREASING. AND CONSTANTEL TRUE REASTED.

The Charter of this Company offers more favorable advantages to the farmer and others, than any Company chartered in the State, by insuring with or without a premium note. If the applicant prefer, he can pay the full amount of the premium in eash, or by effecting a eash insurance for two years, the insured saves one-eighth of the amount he would otherwise have to pay; or by becoming a member, and giving a small premium note, the insured saves nearly one-half of the amount charged by Stock Companies, when insuring from year to year. This is the advantage resulting from the

combination of the CASH AND MUTUAL PRINCIPLE. This Company commenced issuing Policies against loss or damage by fire, on the 13th day of March, 1854, since which time over seven thousand seven hundred persons have insured and become members of the Company, and over seventy thousand dollars have been paid for losses. Having increased our business during the past year, we feel grateful for the liberal patronage bestowed upon STOCKS and other SECURITIES bought and sold the Company thus far, and for its flattering prospects of future usefulness. The Directors hope and believe, that, by prudence, caution, and a rigid system of economy, they will establish for this Company a reputation for cheapness and safety not surpassed by any Company in the U. States. All differences in settlement of losses, may be determined by three disinterested arbitrators of the County where such loss happened, to be mutually chosen by the insured and the Company.

SUMMER SOURS. INTERESTING TO EVERYBODY.-Physiologi cal research has fully established the fact NEW-YORK. FIFTH that acids promote the separation of the bile ESTABLISHED 1854. YEAR. from the blood, which is then passed from the system, thus preventing fevers, the prevailing diseases of summer. All fevers are "billious," that is the bile is in the blood. Whatever is antagonistic to fever is "cooling." It is a common saying that fruits are "cooling," and also berries of every description; it is be cause the acidity which they contain aids in separating the bile from the blood; that is, aids in purifying the blood. Hence the great yearning for greens and lettuce, and salads in the early spring, these being eaten with vinegar; hence also the taste for something sour, for lemonades, on an attack of fever. But this being the case, it is easy to see that we nullify the good effects of fruits and berries in proportion as we eat them with sugar, or even sweet milk or cream. If we eat them in their natural state, fresh, ripe, perfeet, it is almost impossible to eat too many, to eat enough to hurt us, especially if we eat them alone, not taking any liquid with them whatever. Hence also is buttermilk or even common sour milk promotive of health in summer time. Sweet milk tends to billiousness in sedentary people, som milk is anta-gonistic. An angry letter, especially if the writer be well loved, is so much fiercer than an angry speed, and so much more unendurable.— There the words remain scorehing, not to be explained away, not to be atoned for by a kiss, not to be softened down by the word of love that may follow so quickly upon spoken anger. Heaven defend me from angry letters. They should never be written, unless to schoolboys and men at college, and not often to them if they be any way tender-hearted .-This at least should be a rule through the letter-writing world, that no angry letter shall be posted until four and twenty hours shall have elapsed since it was written. We all know how absurd is that other rule, that of saying the alphabet when you are angry. Trash! Sit down and write your letter. Write it with all the venom in your power, spit out your spleen at the fullest-it will do you good. You think you have been injured. Say all that you can say with all your poisoned eloquence, and gratify yourself by reading it while your temper is still hot. Then put it in your desk, and as a matter of course, burn it before breakfast the next morning! Relieve me that you will then have a double
